<p>People often argue whether changes in the language structure are necessary or language should be kept in its original form. That is why I am going to comment on the article "World English" which tells contains the information about the first settlements in present-day America and how their arrival have affected English as a language. 54</p> <p>According to the article, there were several waves of immigration to the New World starting from the 16th century. They consisted of many different nations ^{nos. 44} including British and Irish. Moreover, even Spanish and French languages were common among first American settlements. This way, the original English language, mostly used in these areas, was inevitably bound to change because of the ^{arrival of} new cultures and dialects. According to the article, the dialect of ⁴²⁷ so-called Sumbelt is the closest to American speech nowadays. 81</p> <p>It is important to mention that people should remember the to origins of their language and try not to ^{damage} mix it with not mix it with other languages to preserve the wisdom of our ancestors and to respect our culture. However, the language is indeed a flexible, so, not all renovations should be banned. from my point in my opinion, some changes will come naturally in its time. 57</p>	Количество слов: 186
