						Score	7

Part 2. Writing

Tasks 031-035. Write the sentence.

(10 баллов, по 2 балла за каждое правильно составленное предложение)

ПОЛЕ ОТВЕТА УЧАСТНИКА		Комментарии жюри / Балл
031.	The first significant steps to English progressing into becoming a lingua franca were prolonged ones, leading to the merger of different linguistic identities via large-scale immigration, which ultimately increased the figure of English speakers worldwide, let alone the discovery and subsequent settlement of North America by the English which had a transformative impact on the history of the language.	2
032.	With the first permanent English settlement established in Virginia, further settlements were on to be founded by immigrants among them a group of Puritans, who had arrived in the company of the 67 Pilgrims settlers all of them reaching the New World in present-day Plymouth, Massachusetts as a result of violent sea storms.	0
033.	As new ships continued to arrive all through the 19th century a variety of linguistic backgrounds came to be settled. Resultantly, the sharp divisions between regional dialects beginning to blur.	0
034.	In the 18th century a wave of immigration came from Northern Ireland, with the newly-arrived settlers moving inland further and further on their trading march revealing great Irish pioneering spirit.	2
035.	In the late 19th century the US population numbered over 50 million as opposed to the first census of 1790 that estimated the erstwhile population at around a million, unmistakably demonstrating the spread of American colonisation throughout the globe.	2

<p> The article recounts the story of how the English language of today came to be what it is now. According to the article, the key process in popularising the use of English is immigration from various countries, England being the predominant one. However, there are contradictory points of view on the issue. </p> <p> Some are firmly convinced that English saw its development in leaps and bounds in the years between the reign of two name-sake queens, with America being the melting pot of all linguistic cultures. Nonetheless, others hold it that the ubiquity of English was laid the groundwork for by the large-scale immigration and subsequent ^{English} westward movement of the language all throughout the continent, the colonists found themselves speaking different varieties of one tongue, which called for the differences in dialects to blur, thus leading to the emergence of a more unified, consistent means of communication that is known today as the English language. </p> <p> Personally, I believe that these two notions do hold in truth with any attempt to differentiate between the two being historically redundant. Moreover, we never know what might have happened to the great, all-mighty English if one of its ^{evolution} development steps had been phased out. </p>	Количество слов: <u>205</u>
