<p>The article "World English" mainly focuses on the development of English throughout the world history. Not only does it mention different accents and dialects, but also tells us how and where they appeared. 33</p> <p>According to the article, the number of English native speakers increased greatly due to the colonization of the New World. 20</p> <p>Set The settlers of various nationalities, including the French, Spanish, German and Irish people, migrated to America. Their languages mixed with English, creating an incredible linguistic diversity of different dialects. Just in two centuries, a nondescript piece of the earth has become the "melting pot" and the population of the country has experienced a rapid surge. The author also emphasizes that after the west was opened up, the accent called Sunbelt appeared there, and now days ^{which} it is now associated with modern American speech. 49</p> <p>There is no doubt that English is one of the most widely-spoken languages in the world. Its history is enormously rich, and all the facts from the article prove it perfectly. English has become a legacy of generations of people all over the world, and it is my firm belief that it still dominates the world in a certain way. 60</p>	<p>Количество слов: 192</p>
