The first significant step that increased the figure of English and its importance and added dimension to the history of the language took place in the 16th century. More and more people were arriving to the North America, sharing their traditions and dialects. *43*

People organized more further settlements and new immigrants arrived in the company of their families, finally reaching the land. The more shiploads of immigrants came to be settled, the faster the divisions between dialects ^{begin to split} blurred. Some people can say that it is bad because settlers lost their part of their culture but I do not think so. *59*

I am absolutely convinced that a wave of immigrant immigration, a lot of people from which moved inland, increased the pioneering spirit and created a new unic culture. All of the settlers found the place they could call home. *39*

Needless to say, the population numbered around 4 million was counted by the first census then rapidly spread throughout the continent, creating their traditions and speech. English has a rich and ancient history and there are no doubts that the heritage of the settlers is crucial. *46*
