<p>Lady Columbia was the United States' earliest personification, appearing already in the colonial period under names such as Columбина and later simply Columbia. She represented high ideals during the Revolution, guided westward expansion as a symbol of Manifest Destiny, welcomed European immigrants, and inspired patriotic feelings through the song "Hail Columbia". Drawn as a dignified neoclassical goddess, she dominated political art for roughly two centuries.</p> <p>Her importance faded near the end of the 19th century and into the 20th because the frontier was declared closed, classical education lost ground, and powerful new emblems — especially the Statue of Liberty and Uncle Sam — better matched the country's changing identity and global role.</p> <p>Certain historians consider her decline logical and inevitable: America had outgrown a symbol rooted in Greco-Roman tradition and frontier mythology. Others argue that her noble, serene appearance expressed permanent values of liberty and aspiration more elegantly than the rougher, more modern figures that replaced her. Personally, I believe both perspectives hold truth. National symbols naturally reflect their era; Columbia's gradual retreat mirrors the nation's shift toward industrial strength and cultural pluralism. Still, her quiet survival in institutions, memorials and the Columbia Pictures logo proves that core American ideas of opportunity and progress remain influential even when the visual language changes.</p>	Количество слов: <u>187</u>
