<p>This article tells about the history of tea, its changing and spreading around the world. How did the tea come to Europe and America and where people drank it before?</p> <p>Actually, the first country where tea was produced and became popular was China. In the beginning of 17th century Europeans found out about this drink and started buying it from China. Despite that, they didn't get the best tea because they only came in winter. That caused the Opium Wars which ended by the winning of Britain. They started producing their own tea in the colonized lands.</p> <p>Some people think can think that it is good and that's the reason why tea is so wide-spread now, but I don't think so. Workers on British lands had really bad condition, they were nearly slaves, and the Opium Wars was also a tragic event. British people were really eager to have control over all tea market and that ruined many people's lives; some of them got addicted to opium and some died in armed conflicts.</p>	Количество слов: 170
